SOUTHPORT, MAINE - When the tide goes out on the coast of Maine it pulls the plug on a lot of water. This quiet cove in Southport, near Boothbay Harbor, creates an abstract design out of water and float as viewed from the drawbridge. Throughout the day, in the months of summer, this little draw lifts and lowers to the rhythm of boat and vehicle travel to allow entrance to the cove and access to the island. There are hundreds of coves on the coast and each a scene of still beauty. DCJ PHOTO

to aid the committee members in planning a five-year Capital Needs Budget.

Mrs. Whalley recommended that two members from each Board (Marion, Mattapoisett and Rochester) attend the seminars. She noted there would be an added benefit in that those attending could come back with information to help us here. Mrs. Whalley and Mrs. Sylvia explained there would be no cost to the town, with the possible exception of a small amount for paper supplies.

Selectman William F. Hubbard, who also serves on the ORR Advisory Committee, said, "This is a step in the right direction to start planning farther down the road than we have in the past."

In other business, Selectmen:

WERE NOTIFIED by Peter B. Perkins, Chairman of the Planning Board, that the Board has voted 3-0 not to endorse the plan submitted on October 20 to sub-divide land off Hereford Hill Road. The Board cited the plan as having insufficient frontage creating a sub-standard lot; therefore, it does not meet the provisions of the sub-division Control Laws. Arthur Thompson Engineers, Inc. of Marion will also be notified of the vote not to endorse the plan.

Selectmen were notified one of the reasons for failure to endorse

mited to the Board by Joan Walsh, Superintendent of Schools, who recommended it be submitted to the Mattapoisett voters at the December 1st Special Town Meeting.

The article seeks \$48,000 as an estimate of a percentage of what designer services for the entire project would cost and includes the amount for the emergency repairs, as well as for the larger project. It was noted the amount is subject to change. Superintendent Walsh wrote: "We have sought the advice of counsel on the type of warrant article which authorizes the District to incur debit, thus the designer services would then be part of the entire larger project and eligible for reimbursement from the state. If in fact the project were not to go forward, the money for the services could be paid off in a short period of time."

The article reads: "VOTED that for the purposes of financing costs

WHERE EXCELLENT SERVICE MEANS SATISFIED CUSTOMERS

QUESTION: How do EMPLOYEES & COMPANIES BENEFIT FROM CHIROPRACTIC SPINAL MANIPULATION?

ANSWER: With higher performance and more productivity.

When a worker is sidelined because of a health problem, everybody loses.

The company loses a valuable employee, which could mean a loss of production. The worker loses self-confidence in addition to suffering pain and disability. The family unit loses part of its income, so important to maintaining a standard of living. The union loses part of its health and welfare fund - payments and other benefits.

Obviously, there is no way of eliminating on-the-job and off-the-job injuries entirely. But they would be helped, and less costly for all time for recuperation could be reduced.

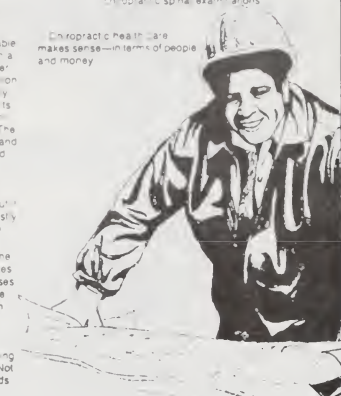

Chiropractic can reduce time off in fact. Comparative studies of workers' compensation cases from a number of states prove chiropractic's effectiveness in getting injured employees on their feet faster.

Imagine the advantages of eliminating hospitalization. Being treated on an out-care basis. Not being subjected to the hazards and expenses of drugs and surgery.

Here's what you can do:

- Get to know the chiropractic health method and its benefits.
- Make chiropractic services available to employees in any health and welfare or insurance program with which you are associated. Insist upon it.
- Recognize the importance of structural health. One of the best safeguards against illness and disease is to practice a program of health care which includes chiropractic spinal examinations.

Chiropractic health care makes sense—in terms of people and money.

This vote is necessary, claims the ORR District School Committee, because the article language used in Marion and Rochester differed from that used in Mattapoisett; voters at the December 1st special town meeting may have to vote on the project again.

Although Selectmen voiced no objections to the article, Selectman Hubbard said he would attend the next ORR Advisory Committee meeting to obtain more information to bring back to the Board. Chairman DeCosta said they would ask the ORR Committee to rescind its vote and resubmit the article at a date closer to December 1st. "If we accept it now, we would have to hold a special town meeting within 30 days," the chairman explained.

APPOINTED Francis Rowland, 14 Foster Street as the Town Historian. This is a new appointment and is an honorary one.

Selectman Hubbard explained Mr. Rowland has been doing a lot of historical study of Mattapoisett and he plans to put the history information on tape. He pointed out with Mr. Rowland's appointment this will give him written authority when visiting museums or obtaining historical data.

TOOK UNDER ADVISEMENT a request from Mr. Arnold Bridge, 6 Deepwoods Drive that signs be placed on either end of the River Road Bridge, indicating that it is a single lane bridge. Mr. Bridge recommended that the signs say, "Stop, One Lane Bridge".

Put less money into your boiler.

A new Model 68 oil boiler from Weil-McLain could save you hundreds of dollars on your heating bills—this winter alone!

If your oil boiler is more than 10 years old, it could be operating at only 60% efficiency—or less. That means 40% of your heating dollars could be going right up the chimney.

But a new 68 boiler from Weil-McLain operates at 84% efficiency, which means it can pay for itself in just a few short years.

That means more money in your pocket—and less in your boiler.

Find out how much you can save with a Weil-McLain 68 oil boiler. Call us today!

the School Committees, Finance Committee and the Selectmen in preparing a project five year budget. She received a letter of support from the Selectmen and will keep them advised of progress.

A petition was submitted to the Selectmen by residents of South Street asking for relief from parking of non-resident vehicles which obstruct South Street driveways. Many suggestions were made, such as: widening driveway markings, restrict parking to one side of the street, restrict overnight parking, and parking with privilege sticker only. This seems to be the principal parking area for Yacht Club members. The D.P.W. will be asked to look into the problem and suggest remedies.

Representatives of the Parking Study Committee, the Planning Board and the Taber Hall Study Committee met to discuss possible solutions to the Village parking problem. A plan was submitted which showed a possible layout in the Island Wharf Park area and

also proposed a number of parking spaces behind Taber Hall. Cal Allen of the Marine Resources Commission asked many questions about the proposed changes and the possible effect on the boating public. Because information was not available beforehand to involved committees, it was suggested that the Parking Study Group would send out information to all such committees, and plan to have a meeting which would include all concerned parties. Ted Iddings will get back with a date, tentatively Monday, November 2nd, at 7:30 p.m.

Karen Licciardi, chairman of the Recreation Committee, appeared with members of her committee to discuss the possibility of hiring a part-time director for the Recreation Program. The committee would like to expand the program to include those children in town who are not interested in athletics but would benefit from arts or crafts instruction. She also said some provision should be made for "latch key" children to keep them out of trouble. The committee

formerly had sufficient volunteer help to cover activities but more and more people are too busy with jobs and family. It was suggested that junior high teams of O.R.R.

The Cemetery Commissioners will meet with Selectmen on November 3.

The final report of the Capital Planning/Assessment Committee was presented and the Selectmen will study it during the week and discuss it at the next meeting.

Mr. Pickles announced that the tentative figure for free cash is \$150,000.

The Central Office of the U.S. Postal Service in Providence, RI has proposed moving the Marion Post Office to another location because of crowding in the village location. The Selectmen agreed to send a strong protest because such a move would be very harmful to the village merchants.

It was suggested that Superintendent of Schools Joan Walsh be invited to meet with the Selectmen to bring the Board up to date on long term plans

If you saw too much of this last winter, call us now.

We'll show you how a new Weil-McLain Model 68 oil boiler could save you hundreds of dollars on your heating bills next winter.

The fact is many older boilers operate at only about 60% efficiency. That means that as much as 40% of the fuel you're paying for could be going right up the chimney. The new Weil-McLain 68 oil boiler operates at over 84% efficiency—so it can save you enough money in oil bills to pay for itself in a few short years.

Beach Grass Planting Day

AT SILVERSHELL BEACH

Beach grass planting day, Saturday, November 7th, will take place at Silvershell Beach in Marion. This planting will help control the present serious erosion problem in certain areas. Beginning at 9:00 a.m. volunteers may come and go at the times most convenient for them. Interested residents from Marion and Rochester -- Silvershell is Rochester's beach too -- are urged to join in. The planting makes a splendid family project -- even better with a picnic or a snack. The bathhouse will be open for shelter but the water is drained so there are no toilet facilities. If it is pouring rain, planting will be done on Saturday, November 14th.

The Silvershell Beach grass project, directed by Olive Harris, has the approval of the Marion Board of Selectmen and the Marion Conservation Committee, and Beach Director Richard Duffy has been consulted. The planting is sponsored by the Tri-Town League of Women Voters and has been accepted as a project in celebration of the Bicentennial of the Constitution and for the annual national Coast Week celebration of our coastal heritage.

As beach grass cannot be walked on, a careful plan has been developed which will have grass planted where out-of-control erosion is occurring or most likely to occur and which will allow the beach to be enlarged when necessary in other less threatened areas. The most erosion-threatened areas are those where the waves come straight in; where the water approaches at an angle there is much less vulnerability. Ten paths, following the present

pattern of use, as noted by careful committee observation during the past summer, will thread their way through the beach grass to the parking lot, bathhouse, other beach areas, etc.

Beach grass grows with strong roots eight to ten inches below the ground (sand) and spreads underground. The plant reaches a height of fifteen to twenty inches in a clump and catches the sand and seaweed, thereby building a barrier to the water flow and preserving the land area.

The Silvershell grass is Cape Beach Grass from the Cape Cod Beach Grass Nursery of Betty and Tony Whayne of Rochester. The grass is a special strain, *ammophila breviliolata*, discovered on Cape Cod in 1965. It has more leaves and thicker stems than ordinary beach grass and spreads very rapidly. It is very tightly controlled by the United States Department of Agriculture so that it will not be contaminated. Each grower must be certified and can use only government-issue stock.

Over 300 guests attended this year's program, "Councils on Aging: Working Today for Your Tomorrow". Mrs. Sanders took part in several workshops during the two days. Creative Approaches to Senior Center Humanities Programs and Developing Skills for Small Senior Centers are but two examples of the interesting topics offered this year. By attending conferences such as this one, directors learn new and varied services as well as innovative policies and programs to address the complex needs of our nation's growing older population.

Ron Shaw, who are twin brothers, have been performing together as a duo for the past ten years. Hailing from New Hampshire, the Shaw Brothers' music is as fresh and invigorating as the rugged New England coast and New Hampshire hills they call home. You may remember them from the Coca Cola song, "I'd Like to Teach the World to Sing", which went on to become one of the biggest international hits of all time.

Bill Staines and The Shaw Brothers are the opening concert for the Zeiterion's newly created Folk Music Series. The series will also feature Irish musicians Jimmy Keane, Mick Moloney and Robbie O'Connell on Saturday, January 30th, at 8:00 p.m.; and Tom Chapin with special guest Bill Morrissey, one of New England's favorite folk performers, on Saturday, March 12th, at 8:00 p.m. Subscriptions for the three folk music concerts are still available at a 20% discount.
